

Neudesic App of the Future

Drive Innovation and Accelerate Impact with a New Modern App

Microsoft
Funding
Available

Our one-week App of the Future engagement can help your organization harness the power of cloud-native technologies and understand the art of the possible with a ready-to-execute cloud-native application architecture in the Azure cloud.

How can the App of the Future help your business?

40% more cost effective
with economies of scale
and proven processes

60% faster time to value
leveraging automation
and established templates

Reduced delivery risk
with proven frameworks backed
by 10,000+ development hours

These are **REAL RESULTS** our clients have realized. *What can you achieve?*

Outcomes for your Organization Include

- ✓ Customized design workshop to envision app features and functionality
- ✓ Rapid app prototype to illustrate key solution capabilities and advantages
 - ✓ Detailed app architecture design recommendation on Azure
 - ✓ Cost and time estimates for delivery of full app development
