NEUDESIC
an IBM Company

Microsoft

The Neudesic Cloud Factory

The fastest, safest, and most cost-effective framework to **drive migration and modernization in the Azure Cloud**

Microsoft Funding Available

Up to 40% More Cost Effective
With economies of scale and proven Azure migration processes

60% Faster Time to Value
Leveraging automation for collection and deployment with established templates

Reduced Delivery Risk
With proven frameworks backed by 10,000+ development hours

Single Cohesive Team Delivery Model
Disciplined delivery by fully onshore or hybrid team to reduce errors

The Neudesic Cloud Factory is a repeatable framework that accelerates the typical migration and modernization timetable to provide more value to organizations in less time. **The Cloud Factory** is powered by automation, delivered by a single onshore or hybrid team, and fully aligned to the Microsoft Cloud Adoption Framework.

The Neudesic Cloud Factory enables teams to concurrently migrate and modernize multiple applications to increase scalability, flexibility, and meet the diverse needs of our clients with a three-prong approach:

On Premise Workloads & Databases

LIFT & SHIFT

REFACTOR

MODERNIZE

Cloud Enabled Workloads & Modern Data Center

Lift & Shift helps clients reduce costs, remove risk, and increase flexibility

Refactoring provides clients with long-term cost savings and improves resiliency

Modernizing maximizes performance, optimizes costs, and accelerates client delivery

How Our Cloud Factory is Different

While the concept of a migration factory isn't new, the Neudesic Cloud Factory offers a variety of unique characteristics that have been consistently proven to reduce cost, add value, and accelerate overall client modernization in the cloud.

On Premise Workloads & Databases

LIFT & SHIFT

REFACTOR

MODERNIZE

Cloud Enabled Workloads & Modern Data Center

Portfolio Rationalization Up Front
To pre-assign workloads to pods & accelerate development

100% Onshore Delivery Option
Ensures seamless delivery when offshore resources aren't viable

Flexible Cost-Effective Model
Based on a migration-as-a-service cost model, we can reduce cost for multiple pod utilization & longer-term contracts

Cloud Knowledge Transfer and Upskilling
Providing domain knowledge to client teams around DevOps, Kubernetes & cloud-native skills

Specialized Teams for Industry Compliance
Ensures compliance with key regulations & overall risk reduction

100% OPEX Model
Allows organizations the flexibility to budget on a monthly basis

Our End-to-End Approach for Migration

Let Neudesic help guide your cloud transformation journey with a proven end-to-end approach to maximize your organizational investments and reduce overall time to value.

Strategy ▶ Governance ▶ Migration ▶ Optimization ▶ Support
